

TANOVA

DESIGNED FOR
KIWIS, BY KIWIS

Fully

‘funk-tional’

Designed for Kiwis, by Kiwis, with practicality and performance in mind, **Tanova’s Ventilated Drawers** also provide a funky, contemporary look.

Perfect for use in sculleries, pantries, wardrobes, custom furniture and kids’ playrooms to name just a few domestic uses, they’re tough enough for light commercial use too!

Not only that, they also carry the official New Zealand Made licence.

Designer's choice

Available off the shelf in two versatile colours – Coal Dust Grey and White – Tanova's Ventilated Drawers are suitably stylish for open-fronted installation, as well as inside cabinets, so if you want them on display, they'll absolutely look the part!

Coal Dust Grey

Bold, contemporary and refined.
A bold, contemporary finish that makes a striking statement in modern spaces.

Classic White

Timeless, bright and versatile.
A timeless finish that complements both traditional and contemporary interiors.

Kiwi ingenuity

Tanova ventilated drawers were designed by us, in conjunction with Kiwi designers and makers with Kiwi household use in mind. The baskets are fabricated right here too, so it's only natural they carry the official New Zealand made licence.

Sized to suit

Available for common modular cabinet widths of 450mm and 600mm and in 3 heights, there's also a choice of front to back depths; 390mm are great for wardrobes and furniture, 500mm for kitchen cabinetry.

Soft AND strong!

Built on quality soft close runners, these drawers also feature generous load capacities; 25kg on the 390mm runner models and 34kg on the 500mm runner models.

Colour choice

Whether Classic White or contemporary Coal Dust Grey, they both look fantastic!

But wait there's more ...

While developed for residential use, these drawers are so robust and durable that they're also ideal for light commercial use like clinics, offices, childcare centres, salons and more.

Tanova Ventilated Drawers

combine durable powder-coated steel construction with soft-close runners and generous load capacities for reliable everyday performance.

Their ventilated side and front panels allow for airflow, making them ideal for produce storage in the kitchen ... and even as an alternative to pull out laundry hampers.

Available in 450mm and 600mm cabinet widths, 390mm and 500mm depths, and three drawer heights, there's a configuration to suit a wide range of residential and light commercial applications.
